January 15, 1999

Weller Construction
18660 Mountain View Drive
Pine Grove, CA 95665

To Whom It May Concern:

This letter is regarding Jim Weller/President Weller Construction that recently built Red Bluff Tumor Institute.

The construction was finished on time as per plans, and I was very happy with the finished product.

Mr. Jim Weller is very knowledgeable in building vaults for the linear accelerators and has an extensive practice and expertise in doing so. I recommend him without reservations. Should anyone be interested for any more information please feel free to call me at the number above.

Sincerely,

John Thomas, M.D.
