Weller Construction  
PO Box 3063  
Sonora, CA. 95370

To Whom It May Concern,

It gives me great pleasure to be a professional reference for Jim Weller. Jim is extremely honest, straightforward in his approach and knowledgeable in linac construction. He is also one professional with a great attitude! Jim and his team are wonderful to work with. His dedication to his work enabled our project to stay on track. Jim always communicated problems to me in a timely, no nonsense matter. This open communication enabled us to make decisions that quickly benefited our project and our hospital. The end result of Weller Construction's dedication and professionalism is a beautiful top notch Linac/CT suite, where cancer patients are treated in peaceful privacy.

Glendale Adventist Cancer Services Department is forever grateful and appreciative that we had the opportunity to work with Weller Construction!

I can recommend Jim without reservation. Please contact me directly if you require further information.

Sincerely Yours,

A handwritten signature in cursive script that reads "Melina Thorpe".
